KWG ANNOUNCES INCREASE OF PROPOSED PRIVATE PLACEMENT OF CONVERTIBLE DEBENTURES

Toronto, Canada, June 27, 2024 – **KWG Resources Inc. (CSE: CACR and CACR.A)**, which carries on business as **The Canadian Chrome Company** (“**CCC**”, “**KWG**” or the “**Company**”) (The Canadian Chrome Company is a registered business style of **KWG Resources Inc.**) is pleased to announce the increase of its previously announced private placement (the “**Private Placement**”) of Series CD-2024 convertible debentures (the “**Debentures**”) by an additional \$3,000,000, bringing the proposed Private Placement up to \$5,000,000 Debentures on the same terms as previously announced (*see the Company’s news release dated May 13, 2024*). The closing of the Private Placement is anticipated to be completed by July 31, 2024.

This news release shall not constitute an offer to sell nor the solicitation of an offer to buy securities.

About The Canadian Chrome Company:

KWG, which carries on business as The Canadian Chrome Company, is an exploration stage company that is focused on identification, acquisition, consolidation, exploration, development and evaluation of large-scale deposits of minerals including chromite, base metals and strategic minerals and, where applicable, in the development of transportation links to access remote areas where these deposits may be located. In respect of chromite, KWG is the owner of 100% of the Black Horse chromite project (formerly part of Fancamp’s “Koper Lake-McFaulds” properties) in which Bold Ventures Inc. is carried through exploration of the former Fancamp claims for 10% of the chromite project. KWG also holds other area interests including a 100% interest in the Hornby claims, a 15% vested interest in the McFaulds copper/zinc project and a vested 30% interest in the Big Daddy chromite project. KWG also owns 100% of Canada Chrome Corporation (the “Subsidiary”) which staked mining claims between Aroland, Ontario (near Nakina) and the Ring of Fire. The Subsidiary has conducted a surveying and mineral and soil testing program to explore for minerals and to assess the prospects for the engineering and construction of a railroad along that route between the Ring of Fire and Aroland, Ontario covering the claims staked by the Subsidiary. The Subsidiary identified deposits of aggregate along the route and made application for 32 aggregate extraction permits. The Subsidiary engaged Cormorant Utilities and Rail-Veyor Technologies for Engineering Proposals for the construction of a transportation and utility corridor within the route to connect the Ring of Fire area to transportation and electrification systems which run through Nakina, Ontario (near Aroland) connecting to southern Ontario and the rest of Canada and has received those proposals. Those proposals include electrification systems connecting to several First Nations communities in the James Bay Lowlands including in the Ring of Fire area. KWG has also acquired intellectual property interests, including a method for the direct reduction of chromite to metalized iron and chrome using natural gas. KWG subsidiary Muketi Metallurgical

LP has acquired two chromite-refining patents in Canada and one in each of the USA, South Africa and Kazakhstan, and is prosecuting an application in Turkey.
